PROFESSIONAL SUMMARY

High-achieving MCA student and Full-Stack AI Developer specializing in **Agentic AI, LLM Integrations, and Scalable Web Applications**. Proven hands-on experience developing production-ready systems using **Python (FastAPI), React.js, Next.js, Node.js, and Java (Spring Boot)**. Adept in implementing semantic search pipelines with **vector databases (ChromaDB)**, deploying **LLMs (Google Gemini API)** with fallback mechanisms, and containerizing microservices with **Docker**. Strong foundation in full-stack architecture, relational/NoSQL databases, and clean code standards.

EXPERIENCE

CubeAI Solutions Pvt. Ltd. **Feb 2026 – Jul 2026**

Agentic AI Full-Stack Developer Intern *Bengaluru, India*

- **Engineered full-stack modules and high-throughput RESTful APIs** using React.js, Next.js, Node.js, Express.js, and MongoDB, bridging interactive UI components with low-latency backend services.
- **Architected vector retrieval pipelines for ProposalFlow AI** using Python, FastAPI, and ChromaDB, enabling sub-second semantic document retrieval and agentic AI-powered proposal generation.
- **Integrated Large Language Model APIs (Google Gemini)** with dynamic prompt engineering and resilient offline fallback mechanisms, automating contextual document extraction and synthesis.
- **Containerized application microservices using Docker**, establishing standardized development environments and seamless multi-environment CI/CD deployments.
- **Enforced enterprise-grade security and authentication standards**, implementing stateless JWT authentication, CORS policies, and strict request schema validation.

EDUCATION

KSR College of Engineering — Master of Computer Applications (MCA) **Aug 2025 – Present**

Tiruchengode, India *CGPA: 8.96*

Amity University — Bachelor of Computer Applications (BCA) **Jul 2022 – May 2025**

Noida, India *CGPA: 8.67*

TECHNICAL SKILLS

AI & LLM Engineering: Agentic AI Workflows, LLM APIs (Google Gemini), ChromaDB (Vector DB), RAG Architecture, Semantic Search, Prompt Engineering

Languages & Frameworks: Python, JavaScript (ES6+), Java (21/17), SQL, FastAPI, React.js, Next.js, Spring Boot 3, Node.js, Express.js

Databases, Cloud & DevOps: MySQL, MongoDB, Docker (Containerization), AWS Foundations, Git, GitHub, Linux, CI/CD Pipelines, Postman

Software Engineering: Data Structures & Algorithms (DSA), OOP, Unit Testing (JUnit 5, Mockito), Problem Solving, Code Reviews, JWT & RBAC Security

PROJECTS

AI Resume Analyzer & Job Match Engine | *Spring Boot 3, Java 21, React 18, MySQL, Gemini API* **Live Demo | GitHub**

- Built full-stack AI evaluation engine parsing PDF/DOCX resumes via Apache Tika with magic-byte security and an explainable 60/20/20 scoring rubric across 67+ skills.
- Integrated Google Gemini 1.5 Flash with resilient offline fallback to generate Google XYZ-formula bullet rewrites; verified with 31 automated JUnit 5 and MockMvc tests.

ProposalFlow AI: Vector Retrieval & Agentic System | *FastAPI, Python, ChromaDB, Docker* **Portfolio Project**

- Engineered automated retrieval backend utilizing **ChromaDB vector embeddings** and FastAPI for semantic document search and context enrichment.
- Containerized backend services with multi-stage **Docker** builds, ensuring lightweight execution and rapid CI/CD deployment pipelines.

Luxe: Full-Stack E-Commerce & Admin Platform | *React 19, Node.js, Express.js, MongoDB, Vite* **Live Demo**

- Architected single-page web app with persistent cart state, responsive design, and modular Node.js/Express REST APIs with MongoDB schemas.
- Implemented admin dashboard featuring role-based access control (RBAC), product CRUD operations, and JWT/BCrypt secure authentication.

Movie Recommendation & Semantic Engine | *Python, TF-IDF, Cosine Similarity, TMDB API* **Live Demo**

- Developed content-based recommendation model using TF-IDF vectorization and cosine similarity to compute high-accuracy film suggestions from metadata.
- Engineered data preprocessing pipelines and integrated third-party REST APIs to dynamically fetch and display posters and ratings.

CERTIFICATIONS

- **Full Stack Web Development** — InternsElite (Credential ID: FSWD/26/A4/TC-19426)
- **AI & Machine Learning with Python** — InternsElite (Credential ID: AIML-PY/26/A6/TC-19304)
- **AWS Academy Cloud Foundations** — AWS Academy
- **AI Foundations & Cybersecurity Awareness** — HP LIFE
- **Java Programming** — Great Learning
