PROFESSIONAL SUMMARY

High-achieving MCA student and Backend Developer with strong **problem-solving, analytical thinking, and communication skills**. Experienced in designing, developing, and maintaining scalable backend systems and secure RESTful APIs using **Node.js, Go (Basics), Python, Java, and SQL/NoSQL databases**. Skilled in containerization with **Docker**, **Kubernetes** orchestration concepts, **Jenkins**, and **CI/CD** pipelines across **AWS, Azure, and GCP** environments. Passionate about cyber security, real-time digital threat detection, API security, and code quality at CloudSEK.

EXPERIENCE

CubeAI Solutions Pvt. Ltd. **Feb 2026 – Jul 2026**
Backend & Agentic AI Developer Intern *Bengaluru, India*

- **Designed, developed, and maintained backend systems and RESTful APIs** using Node.js, Express.js, and MongoDB, collaborating with cross-functional teams including front-end developers and data scientists to deliver scalable software solutions.
- **Architected vector database retrieval pipelines** integrating FastAPI and ChromaDB for real-time semantic threat analysis and agentic AI workflows with sub-second response times.
- **Containerized microservices using Docker** and supported automated CI/CD deployment pipelines using Jenkins and Git across cloud environments.
- **Participated in code reviews, debugged software defects, and resolved performance issues**; enforced defensive security controls including JWT authentication, CORS policies, and strict request input validation.

EDUCATION

KSR College of Engineering — Master of Computer Applications (MCA) **Aug 2025 – Present**
Tiruchengode, India *CGPA: 8.96*

Amity University — Bachelor of Computer Applications (BCA) **Jul 2022 – May 2025**
Noida, India *CGPA: 8.67*

TECHNICAL SKILLS

Programming Languages: Node.js, Go (Basics), JavaScript (ES6+), Python, Java, SQL
Backend Development: Express.js, RESTful APIs, FastAPI, Spring Boot, Microservices, Postman
Databases & Caching: MySQL (Relational SQL), MongoDB (NoSQL), ChromaDB (Vector DB), Redis Caching, Schema Design
Cloud & DevOps: Docker, Kubernetes, Jenkins, CI/CD Pipelines, AWS, Azure, GCP, Git, GitHub, Linux
Cybersecurity & Web: Input Validation, Magic-Byte File Verification, JWT, BCrypt, Web Protocols (HTTP/HTTPS), CORS, RBAC
Soft Skills & Methodologies: Problem Solving, Analytical Thinking, Communication, Cross-Functional Collaboration, Code Reviews

PROJECTS

AI Resume Analyzer & Threat Mitigation Engine | *Spring Boot 3, Java 21, React 18, MySQL* **Live Demo | GitHub**

- Built backend processing engine featuring **magic-byte binary verification** and Apache Tika extraction to block MIME-type spoofing and malicious file payload injection.
- Designed normalized MySQL database schemas, resolved performance defects, and validated API reliability through 31 automated unit tests.

Luxe: Scalable E-Commerce Backend & Platform | *Node.js, Express.js, MongoDB, React, Vite* **Live Demo**

- Developed Node.js/Express backend service with RESTful CRUD endpoints, custom error middleware, MongoDB schemas, and optimized queries.
- Enforced defensive security with **JWT authentication, BCrypt password hashing, and role-based access control (RBAC)** to protect sensitive endpoints.

ProposalFlow AI: Vector Retrieval & Agentic Backend | *FastAPI, Python, ChromaDB, Docker* **Portfolio Project**

- Engineered automated retrieval backend utilizing **ChromaDB vector embeddings** and FastAPI for real-time semantic search and agentic AI workflows.
- Containerized backend microservices using **Docker** and established automated Jenkins CI/CD pipeline handoffs for isolated testing.

LendSwift: Digital Loan Origination Platform | *React, Vite, JavaScript, Schema Validation* **Live Demo**

- Engineered an 8-stage digital lending workflow with dynamic schema validation, masked KYC inputs, and complex form state management.
- Implemented client-server input validation and state consistency checks to prevent corrupt payload submissions across multi-step workflows.

CERTIFICATIONS

AWS Academy Cloud Foundations – AWS Academy | **Cybersecurity Awareness & AI Foundations** – HP LIFE
Full Stack Web Development – InternsElite (ID: FSWD/26/A4/TC-19426) | **AI & ML with Python** – InternsElite (ID: AIML-PY/26/A6/TC-19304)
