## PROFESSIONAL SUMMARY

Results-driven MCA student and Full-Stack Developer with hands-on experience architecting production web applications and microservices using Java, Spring Boot, Python, FastAPI, and React.js. Experienced in designing relational/NoSQL schemas, implementing JWT security, and building AI vector search workflows. Eager to contribute scalable backend and full-stack services in a collaborative software engineering environment.

## EXPERIENCE

**CubeAI Solutions Pvt. Ltd.** **Feb 2026 – Jul 2026**
*Agentic AI Full-Stack Developer Intern* *Bengaluru, India*

- **Developed full-stack modules and RESTful APIs** using React.js, Next.js, Node.js, Express.js, and MongoDB to integrate responsive frontend interfaces with scalable backend microservices.
- **Contributed to ProposalFlow AI** using Python, FastAPI, and ChromaDB, supporting high-dimensional semantic document retrieval and AI-powered proposal generation workflows.
- **Containerized application services using Docker** to maintain consistent development environments and simplify multi-environment deployments.
- **Implemented authentication flows, database integration, and input validation**, contributing to secure and reliable application functionality.

## EDUCATION

**KSR College of Engineering — Master of Computer Applications (MCA)** **Aug 2025 – Present**
*Tiruchengode, India* *CGPA: 8.96*

**Amity University — Bachelor of Computer Applications (BCA)** **Jul 2022 – May 2025**
*Noida, India* *CGPA: 8.67*

## TECHNICAL SKILLS

**Programming Languages:** Java (21/17), Python, JavaScript (ES6+), SQL, HTML5, CSS3

**Backend Development:** Spring Boot 3, Node.js, Express.js, FastAPI, Flask, Django, RESTful APIs, Microservices

**Frontend Development:** React.js, Next.js 14, Vite, Tailwind CSS, Single Page Applications (SPA), Context API

**Databases & Cloud:** MySQL, MongoDB, ChromaDB (Vector DB), Spring Data JPA, Hibernate, Docker, Git, GitHub

**Core CS & Tools:** Data Structures & Algorithms (DSA), OOP, DBMS, JUnit 5, Mockito, MockMvc, Postman, Maven

## PROJECTS

**AI Resume Analyzer & Job Match Engine** | ***Java 21, Spring Boot 3, React 18, MySQL*** **Live Demo | GitHub**

- Built full-stack platform parsing PDF/DOCX resumes via Apache Tika with magic-byte security and an explainable 60/20/20 rubric across 67+ skills.
- Integrated Google Gemini 1.5 Flash with resilient offline fallback for Google XYZ-formula bullet rewrites; verified by 31 JUnit/MockMvc tests.

**Luxe: Luxury E-Commerce Platform & Admin** | ***React 19, Node.js, Express, MongoDB, Vite*** **Live Demo**

- Developed a responsive single-page application with persistent shopping cart state, role-based auth, and admin portal for real-time inventory management.

**LendSwift: Digital Loan Origination Platform** | ***React, Vite, JavaScript, Schema Validation*** **Live Demo**

- Engineered an 8-stage digital lending workflow with dynamic schema validation, masked KYC inputs, and complex form state management.

**Movie Recommendation Engine** | ***Python, TF-IDF, Cosine Similarity, TMDB API*** **Live Demo**

- Engineered a content-based recommendation model using TF-IDF vectorization and cosine similarity to compute movie suggestions from metadata.

## CERTIFICATIONS

**Full Stack Web Development** – InternsElite (ID: FSWD/26/A4/TC-19426) | **AI & ML with Python** – InternsElite (ID: AIML-PY/26/A6/TC-19304)

**AWS Academy Cloud Foundations** – AWS Academy | **Java Programming** – Great Learning | **AI for Beginners** – HP LIFE
